rin art association is pleased to present "constellation #03".

The diverse works of art in the exhibition space are just like stars in the night sky, allowing viewers to connect their own constellations. The theme of our upcoming exhibition is "cosmos" , the word used as an antonym for "chaos" and was originally defined by the ancient Greek philosopher Pythagoras to refer to the universe, as well as the totality of "matter" and "things" that exist in order and harmony within time and space.

This exhibition, the third of its kind, is an exhibition of the collection by the gallery's owner, Takahito Harada. The works with a consistent theme, collected over a period of 12 years based on the affinity between each work, will be exhibited on three floors of our gallery.

Open 11:00 - 19:00 Closed on Monday and Tuesday
